# MESSAGE FROM THE PRINCIPAL

---

Dear OLPS Supporters,

Thank you all for a wonderful 2022-2023 school year! Because of our generous donors, we have added so many enhancements to our wonderful school.

We are so grateful for your continued support! All monies donated go directly back to the school to ensure our students get the best education possible.

We look forward to continuing to move our school and parish forward and hope we can count on your continued support. Again, thank you for your all you do to make OLPS the place to be. We are looking forward to a great 2023-2024 school year.

Take Care and God Bless,  
Megan Beck

# 2021-22 SCHOOL PROJECT

In June 2022, we broke ground on our new playground for our students. This project was possible because of the generous donors and all the fundraising efforts during the 2021-2022 school year. We are proud of the improvements we are making to our school, and none of this would be possible without the support of our school family, friends and volunteers.

The students loved playing on the new equipment this school year, and we are excited for them to enjoy it for years to come. All of our fundraising dollars are used to improve our school, and we want to share the great things we are doing at OLPS!

# STAY SAFE CAMPAIGN

In June 2022, we launched a Stay Safe campaign to help our school improve campus safety by investing in extra security measures to ensure a safe and healthy environment for our students.

The first part of our plan is to install a keyless entry (FOB) system to all exterior doors of our building. A FOB system will provide school personnel quick access and controlled security by monitoring and authorizing access to campus. This system limits access, minimizes security threats and ensures all exterior doors are securely locked at all times. With its easy-to-use software used to track who enters the building, permissions can be granted or removed at any time—no need to change locks when keys are lost or an employee departs. While our campus is currently secure, this adds an extra layer of security for our students and faculty!

The second part of our plan is to update the school's perimeter with an updated secure fence and landscaping to add an extra level of security. We plan to replace our chain link fence with one that provides a more secure boundary for our campus. In addition to the new fence, we will landscape the area, providing extra privacy and beautification.

Because of the generous friends, family and supporters of OLPS, we have raised enough money to complete the FOB system and Phase 1 of fence.

# OUR PROGRESS

Because of our generous supporters and community partners, we have made a huge impact in our goal for improving campus safety.

We have raised over 50% of our Stay Safe campaign goal, which has allowed us to proceed with the FOB system and the first phase of the privacy fence.

01

## FOB System

FOB system installation began in April 2023 and is expected to be complete by the start of the 2023-24 school year

02

## Privacy Fence - Phase 1

We are in the final stages of planning for construction of the first phase of the privacy fence.

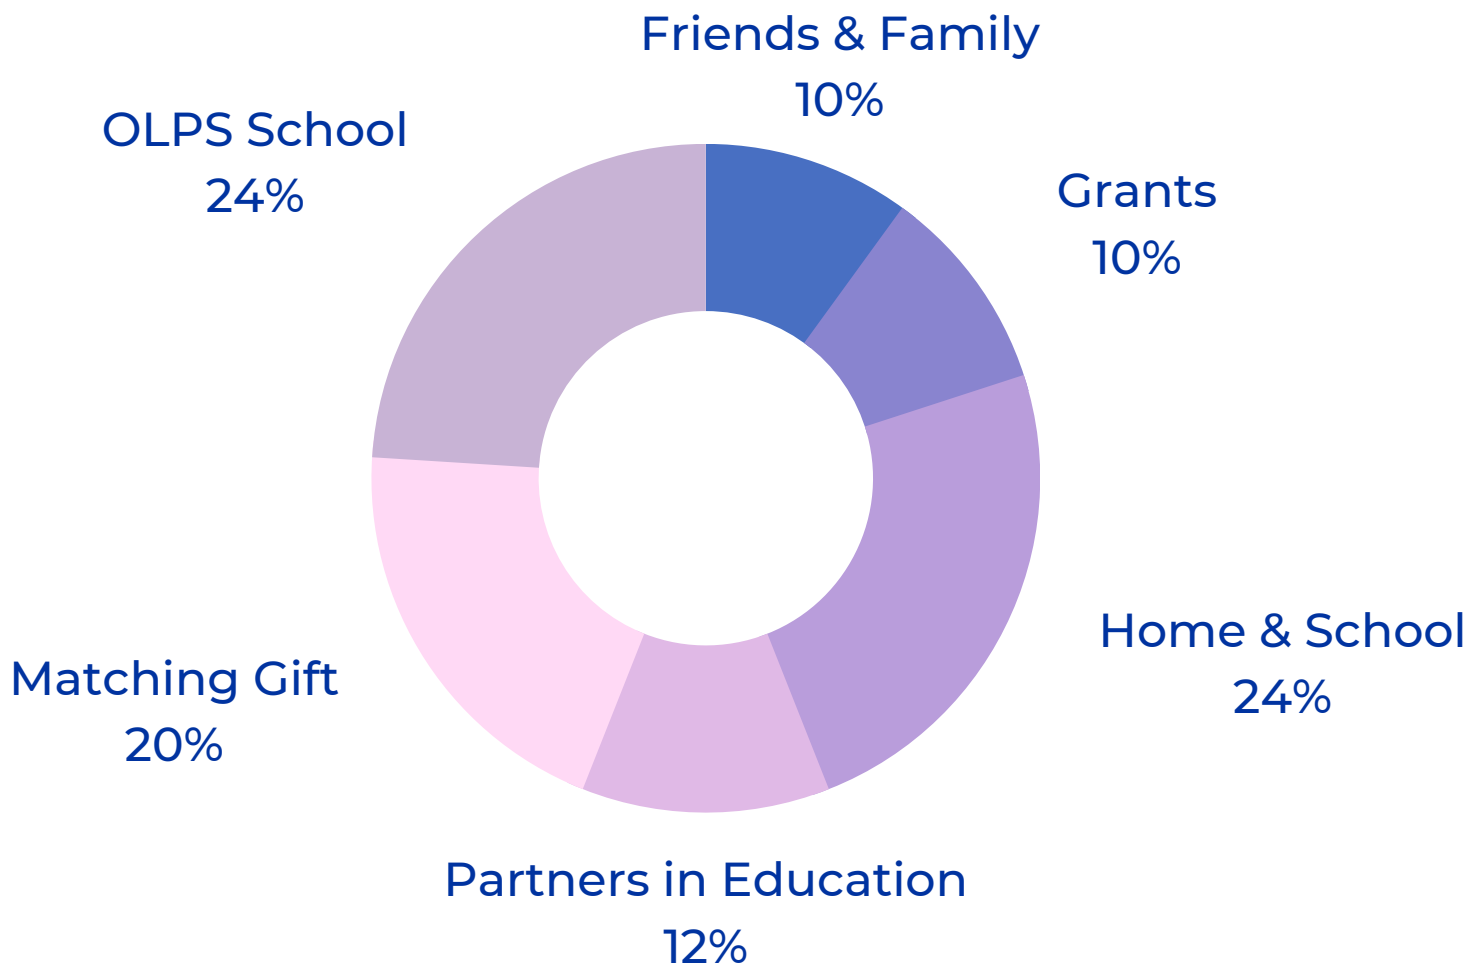

03

## Privacy Fence - Phase 2

We are continuing to fundraise to complete the Stay Safe project. We are at 53% of our overall goal for the Stay Safe campaign project.
